

DANYLO KOSTIV

BARRIE ON | TEL: (705)-279-7536 | E-MAIL: DANIELKOSTIV05@GMAIL.COM | [My Notion Page](#)

Professional Summary

- **Field Engineering & Construction:** Hands-on experience in site inspections, infrastructure projects, and real-world construction execution across multiple job sites
- **Project Coordination:** Managed 5+ concurrent projects, coordinating crews, contractors, and resolving on-site issues to maintain progress
- **Technical Execution:** Strong ability to interpret engineering drawings and translate designs into accurate field implementation
- **Technical Softwares:** Experienced in structural and thermal modelling softwares such as Sap, Etabs, Athena, and Therm.
- **Excel:** Very strong process automation skills with Excel and VBA (material/cost estimators, hourly heat flow model, structural calculation)

Key Skills

-
- | | | |
|--------------------------|---------------------------|--|
| • Field Operations | • Technical Documentation | • Structural Modelling (Sap, Etabs, Atena) |
| • Project Coordination | • Ms Office | • Thermal Modelling (Therm, Hot 2000) |
| • Drawing interpretation | • Excel Automation | • Bluebeam, Autocad |

Professional Experience

Project Coordinator (Co-op)

Powell Contracting, Aurora, Ontario

May 2024 - December 2024

Key Responsibilities:

- Conducted field site investigations and inspections for roadway infrastructure projects across Ontario.
- Verified project installations and materials against engineering drawings and specifications.
- Coordinated with contractors and field crews to ensure construction activities followed design requirements.
- Prepared technical documentation including site reports, sketches, and project progress updates.
- Assisted with planning logistics, scheduling work, and resolving site issues impacting project execution.

Accomplishments:

- Managed coordination and field reporting for five independent infrastructure projects simultaneously.
- Developed an Excel-based engineering calculation and tracking tool used to improve material estimation accuracy.
- Gained experience interpreting construction drawings and translating design information into field implementation.

Labourer

JBC Construction, Barrie, Ontario

July 2021 - August 2023, July 2025 - September 2025

Key Responsibilities:

- Worked on a team completing various home renovation and complete builds working on everything from icf foundations, framing, and finish work (drywall, trim, etc).
- Worked 10-12h days completing various labour intensive tasks.
- Responsible for project updates, ensuring each team had necessary equipment and safety measures, and rough material estimates on occasion.
- Honed time management skills and ability to work in a fast-paced environment.

Education

Bachelor of Engineering, BEng CIVIL

September 2021 - September 2026

Lassonde School of Engineering, York University, Toronto, ON
